Dear Parents of the Ogden City School District,

Under the No Child Left Behind Act of 2001 (NCLB), Section 3302(b) requires Title III recipients to notify the parents of students participating in the language education instructional program, in an understandable format, in the event that Annual Measurable Achievement Objective (AMAOs) were not met during any school year. AMAOs include:

- 1) Annual increases in the number and percent of English language learners making progress in learning English;
- 2) Annual increases in the number and percent of LEP students attaining English proficiency (as measured by a valid and reliable assessment of English proficiency); and
- 3) Making adequate yearly progress (AYP) for LEP students under Title I.

The purpose of this letter is to notify you that the Ogden School District has been identified as failing to reach the Annual Measurable Achievement Objective targets for the 2006-07 school year. The District has developed an improvement plan to address this deficit. We welcome your input on that plan or any thoughts regarding the services that are provided to our English language learners.

Thank you,

Dr. Rich Moore
